Yes... The FBI Is Protecting All Of Us

IN THE VALLEY OF THE MOON

Well. . . Well. . . Well. . . The American Legion has gone on record commending the FBI and its director, J. Edgar Hoover, particularly for their work in protecting us from communist subversion. . .

Since doing this, the Legion's National Commander has been repeatedly asked: "Why was it necessary to reiterate a confidence in the FBI and Mr. Hoover shared by every loyal American?" Here is his answer: "There are some individuals in this country and certain publications determined to discredit the FBI and its Director. . . That a deliberate 'smear Hoover and the FBI' campaign, similar to the Communist Party's unsuccessful efforts of 1940, has been launched is no mere supposition. . ."

He then cited several specific examples . . . including a publication branded by a Senate subcommittee as the organ of a communist front organization. . .

The truth is that the FBI, under Mr. Hoover, has gone to every length to respect and defend the rights and freedoms laid down by the Constitution. . .

A successful "smear campaign", which underminded public faith in this great organization, would perform yeoman service for the Kremlin, its agents, and its followers. . .

Thank you,
The Publisher
